

# **Haryana City Gas Distribution Limited**

## **Become a CNG Dealer**

CNG – is natural gas that is compressed to high pressures so large volumes can be stored in small places and is used as a fuel in automobiles. Natural Gas is compressed & dispensed to vehicles at high pressure of 200 bars to enhance Storage capacity of CNG Cylinder. CNG is substantially economical and Eco-friendly than the conventional liquid auto fuel such as diesel & petrol.

HCGDL is a company supplying CNG through various CNG stations in South Gurgaon i.e. left hand side of Delhi Jaipur highway NH 8. As per the direction of honorable Supreme Court of India all taxis & cabs including ola & uber etc. will run on CNG only in the NCR region. Considering the number of vehicles converting into CNG and to provide better service to public HCGDL is planning to set up new CNG stations in the area of south Gurgaon.

Anyone having agriculture or any other land with the following requirement please feel free to contact us:

- The plot should have a clear and undisputed title for setting up CNG station
- The plot should be around 1200 to 1500 Sq mtrs and having around 50 mtrs frontage
